Skills

Languages: C++, C, Java, JavaScript, Python, SQL, HTML5, CSS3

Libraries/Frameworks: React.js, Next.js, Node.js, React native, Express.js, OpenCV

Tools/Technologies: Linux, REST API, Jupyter Notebook, VS Code, Tailwind, Git & GitHub

Databases: MySQL, MongoDB, Appwrite

Experience

Content Lead & Website Maintenance, IEEE CTSoc Society – Remote

Aug 2025 - Present

- Led and managed website content, including events, announcements, and member update.
- Maintained and regularly updated the society website to ensure accurate and timely information.
- Integrated REST APIs to fetch and display real-time data efficiently.
- Monitored website functionality and resolved content-related issues to ensure smooth operation.

Projects

Attend-X - Smart Attendance System | *Python, Tkinter, OpenCV, MySQL*

Nov-2025

- Developed a desktop-based attendance system using Python and Tkinter, implementing LBPH with OpenCV, reducing manual **attendance effort by 80%**.
- Integrated **MySQL for secure storage** of student data and automated attendance logging and report generation.

Nyay-Setu | *React, Next.js, MongoDB, Redis, Maps API, Gemini API*

Aug-2025

- Led a 6-member team to develop a **full-featured civic-tech platform web** that enables citizens to report and track civic issues such as potholes, street-light failures, and waste management in real time using geolocation.
- Integrated AI-powered assistance with **Gemini API and optimized performance using MongoDB and Redis** for scalable, efficient issue management.

AI Resume Analyzer | *FastAPI, React, spaCy, Tailwind CSS*

Jan-2026

- Developed an AI-powered resume analysis platform using FastAPI and React to extract, analyze, and structure resume content.
- Implemented **NLP-based skill** extraction and keyword matching using spaCy, providing **ATS-focused insights with a responsive Tailwind CSS UI**.

Redoxer | *Python, Data Structures & Algorithms*

Sep-2024

- Built a **file compression and decompression tool** using the **Huffman Coding algorithm**.
- Achieved **60-70% file size reduction**, improving storage efficiency.

Education

KIIT University, B.Tech in Computer Science and Engineering (**CGPA: 9.77/10**)

Sep 2023-Jun 2027

- **Coursework:** Data Structures and Algorithms, Operating System, Machine Learning, Computer Networks, Database Management System, Web Technologies, Object Oriented Programming

Publications & Achievements

- Semester Topper in the 5th and 6th Semesters, achieving a perfect 10.0/10.0 SGPA in both.
- Reached 2nd round in Smart India Hackathon (2025) through university-level selection.
- Maintained 1750+ rating on [Leetcode](#). solved 500+ problems across [CodeChef](#) (3-Star), Leetcode (1750+ Rating), [Code360](#) (Level-5).
- Secured Rank 1882 in LeetCode Weekly Contest 486, competing among thousands globally.

Certifications

- **Full Stack Development By ProPeers**
- **AWS Academy Graduate - Cloud Foundations**
- **IBM Machine Learning**
